INDEX TO VOLUME 29

A

Abell, R. G., and Page, I. H., 655*
Abreu, B. E., and Woodbury, R. A., 762*
Adorno, Amado R., and White, P. D., 440
Adrenalin and carotid sinus, relation of, to hyperglycemia of shock, 763*
Adults, young, asymptomatic heart disease in, 548*
Age, atypical coronary disease in young people, 136*
  cardiac, an electrocardiographic study of, based on records at rest and after exercise, 760*
  influence of, upon blood pressure response to cold-pressor test, 113
  sex, and species variations on blood pressure in normal rats, 550*
Aged, acute bacterial endocarditis in, 597
  subacute bacterial endocarditis in, 661
Aging, intimal arteriosclerosis and disease, calcification of media of human aorta and its relation to, 136*
Aguirre, R. C., Mendy, J. C., and Battro, A., 651*
Aitken, G. J., and Paulley, J. W., 274*
Alberti, V. A., Segura, R. G., and Lanari, A., 549*, 655*
Allmark, M. G., and Bliss, C. I., 553*
Altitudes, different, weight of heart and number of cardiac capillaries in guinea pigs at, 133*
Altschule, M. D., Iglauer, A., and Zamcheck, N., 763*
——, Zamcheck, N., and Frank, H. A., 763*
Anemia, severe, cardiac output in, 410*
  sickle-cell, active, electrocardiogram and cardiac state in, 685
Aneurysm, dissecting, spontaneous complete rupture of aorta showing new physical sign (periaortic friction rub) without, 136*
  infected dissecting, of iliac artery following arteriovenous fistula of femoral vessels, 138*
  ligation of aorta and both common iliacs for, 415*
  of heart, operation for, 138*
  of renal artery—true and false—with special reference to preoperative diagnosis, 415*
  traumatic, and arteriovenous fistulas, treatment of, 274*
Angina pectoris, electrocardiogram after exercise in, 273*
  nicotinic acid in treatment of, 134*
  syndrome of, as a manifestation of hyperactivity of carotid sinus, 37
Angiotonin and epinephrine, effect of intravenous injection of, before and after production of neurogenic hypertension, 278*
Anomaly, congenital; congenitally insufficient tricuspid valve accompanied by anomalous septum in right atrium, 410*
  further experience in surgical treatment of persistence of ductus arteriosus, 760*
  patent ductus arteriosus, and its surgical treatment, 760*
  effect of ligation on infection of, 547*
  preoperative diagnosis of, 410*
  tricuspid insufficiency, 647
Antas, R. J., Green, H. D., Dworkin, R. M., and Bergeron, G. A., 275*
Aorta, abdominal, embolic thrombosis of, with tuberculous (histologic) lesions of heart containing giant cells with radial inclusions, 539
  and both common iliacs, ligation of, for aneurysm, 415*
  human, calcification of media of, its relation to intimal arteriosclerosis, aging, and disease, 136*
  rupture, spontaneous complete of, without dissecting aneurysm showing new physical sign (periaortic friction rub), 136*
Arms, neurovascular syndrome produced by hyperabduction of, 1
Arrhythmias, auricular paroxysmal, prophylactic use of lanatoside C in, 71
Arriens, R. T., Pines, I., and Sanabria, A., 657*
Arteries, major embolic occlusion of, 276
Arteriosclerosis, clinical manifestations of, 546*
  intimal, aging and disease, relation of calcification of media of human aorta to, 136*
Arteritis, temporal, 137*
Artery, coronary disease (atypical) of, in young people, 136*
  diagnosis and treatment of, 546*
  ligation, experimental, effect of, on coenzyme I and cocarboxylase content of myocardium of dog, 384
  occlusion of, after fever therapy for sulfonamide-resistant gonorrheal urethritis, 205*
  in industry, 588
  iliac, both common and aorta, ligation of for aneurysm, 415*
  infected dissecting aneurysm of, following arteriovenous fistula of femoral vessels, 138*
  pulmonary, embolism of, and venous thrombosis, prevention of, 413*
  clinical and cardiographic progress of case, 137*
  renal, aneurysm of—true and false—with special reference to preoperative diagnosis, 415*
  human, effect of transitory complete constriction of, on blood pressure and on concentration in renin, hypertensinogen and hypertensinase of renal arterial and venous blood, with animal observations, 654*
Ascorbic acid, nupercaine, adrenocortical hormones, thiamine, and posttraumatic serum, ineffectiveness of, in shock due to scalding burns, 506
Askey, John Martin, and Neurath, O., 575
Asthenia, neurocirculatory, sugar tolerance in, 396
Atheromatosis, experimental cholesterol, of rabbits, effect of several detergents on, 655*
Atherosclerosis, experimental, 409*
Atrioventricular conduction system, anomalous, excitation of (Wolff-Parkinson-White syndrome), potential variations of thorax and esophagus in, 281
  with unusual features, 479
Atrium, right, congenitally insufficient tricuspid valve accompanied by anomalous septum in, 410*
Atropine, effect of, upon prolongation of P-R interval found in acute rheumatic fever and certain vagotonic persons, 378

An asterisk (*) after a page number indicates the reference is an abstract and not an original article.

Auricle, activity of, chest leads for demonstration of, 547*
premature systole of; I. Aberration of ventricular complex in electrocardiogram in, 449
Axes, momentary atrial electrical; II. Atrial flutter, atrial fibrillation, and paroxysmal tachycardia, 20
III. A-V nodal rhythm, 633

B

Baker, E. C., and Miller, F. A., 656*
Ball, David, 704
Barber, R. F., and Madden, J. L., 277*
Barclay, Alfred E., Franklin, K. J., and Prichard, M. L., 658
Baths, carbon dioxide water, physiologic effects on alveolar carbon dioxide tension, skin temperature, and respiratory metabolism, 44
Battro, A., Aguirre, R. C., and Mendy, J. C., 651*
Bazzano, Juan J., Fournier, J. C. M., and Cerviño, J. M., 659
Beamer, Parker R., Reinhard, E. H., and Goodof, I. I., 99
Beck, C. S., 138*
Beebe, Robert A., and Coleman, G. H., 539
Bellet, Samuel, Wolferth, C. C., Livezey, M. M., and Murphy, F. D., 220
Benchimol, A. B., 767
Berconsky, I., 410*
——, Cossio, P., and Vedoya, R., 650*
Bergeran, G. A., Green, H. D., Dworkin, R. M., and Antos, R. J., 275*
Bergman, H. C., Prinzmetal, M., and Hechter, O., 484, 493, 513
——, Rosenfeld, D. D., Hechter, O., and Prinzmetal, M., 506
——, Sapirstein, L., Fisk, R., Feigen, G., Prinzmetal, M., and Hechter, O., 499
Beri-beri, cardiovascular, case of, 274*
Berliner, Kurt, and Lewithin, L. P., 449
Bigger, I. A., 274*
Billings, Frederick T., and Harvey, A. M., 205
Birge, Richard F., and Glomset, D. J., 526
Blau, A., Kelly, H. G., Jackson, R. L., and Einstein, A. J., 552*
Bliss, C. I., and Allmark, M. G., 553*
Blood filtration across vascular wall as function of several physical factors, 546*
flow and blood pressure, influence of dying gasps, yawns, and sighs on, 762*
and blood vessels as seen in mesenteries of anesthetized dogs, effects of acute hemorrhage and of subsequent infusion upon, 655*
pressure, age, sex, and species variation on, in normal rats, 550*
and blood flow, influence of dying gasps, yawns, and sighs on, 762*
and heart rate, variability of, in selected groups of college and high school students, 412*
arterial, heart rate, and electrocardiogram of rat, effect of hypothermia on, 409*
mechanisms of respiratory variations of, on pulmonary circulation, 549*
basal and casual; IV. Their relationship to supplemental pressure with note on statistical implications, 653*
effect of pregnancy on, in normotensive and hypertensive dogs, 135*
transitory complete constriction of human renal artery on, and concentration of renin, hypertensinogen, and hypertensinase of renal arterial and venous blood, with animal observations, 654*
in two circulations, influence of diminution of intrathoracic pressure on, 655*
measurement of, in rats with special reference to effect of changes in temperature, 550*
response to cold-pressor test influence of age on, 113
Blood pressure—Cont'd
studies on normal and vitamin E deficient rats, 653*
venous, and cardiac output in dog, effect of positive and negative intrathoracic pressure on, 271*
intramuscular pressure, and reduction of plasma volume, comparative results of studies of plasma volume in human being, 551*
role of thebesian drainage in dynamics of coronary flow, 551*
venous, and renal arterial, effect of transitory complete constriction of human renal artery on blood pressure and on the concentration of renin, hypertensinogen, and hypertensinase of, with animal observations, 654*
vessels and blood flow as seen in mesenteries of anesthetized dogs, effects of acute hemorrhage and of subsequent infusion upon, 655*
femoral, infected dissecting aneurysm of iliac artery following arteriovenous fistula of, 138*
great, transportation of, tricuspid atresia and mitral atresia associated with, 90
volume in experimental hemorrhagic shock, 765*
Blumenthal, H. T., 136*
Body surface, relationship between A_{qrs} and G, and potential variations of, 697
Bongiovanni, A. M., and Medoff, H. S., 550*
Boone, John A., 751
——, and Levine, S. A., 547*
Boyd, L. J., and Lange, K., 762*
Bradycardia, epinephrine, and shock in young animals, mechanism of, 656*
Braun, K., and Schindel, L. E., 138*
Braun, L., and Wosika, P. H., 261
Brekke, Viola G., 647
Bridges, W. C., Dexter, L., and Haynes, F. W., 550*
Brown, J. W., and Hampson, F., 137*
Bruetsch, W. L., 652*
Bruger, M., Oppenheim, E., and Members, S., 409*
Bundle branches, delayed conduction in, 728
Burch, G. E., and Winsor, T., 685
Burns, scalding, ineffectiveness of adrenocortical hormones, thiamine, ascorbic acid, nupercaine, and posttraumatic serum in shock due to, 506
Byer, Edwin, and Gremillion, A. I., 697

C

Calcification of media of human aorta and its relation to intimal arteriosclerosis, aging, and disease, 136*
California, incidence of heart disease and rheumatic fever in school children in three climatically different communities of, 178
Canadian army, rheumatic fever in, 273*
Canzanelli, A., Guild, R., and Rapport, D., 764*
Capaccio, G. D., 273*
Capillaries, cardiac, number of, and weight of heart in guinea pigs at different altitudes, 133*
Carbamilcolina, preventive treatment of supraventricular paroxysmal tachycardia with, 410*
Carbon dioxide, alveolar tension of, skin temperature, and respiratory metabolism, physiologic effects of carbon dioxide water baths on, 44
Cardiovascular, beri-beri, case of, 274*
disease, management of myxedematous patient with symptoms of, 421
radiologic image of arch of azygos vein in, 414*
thyroid gland insufficiency in, 659 (B. rev.)
system and fetal circulation, and changes that they undergo at birth, 658 (B. rev.)

Carotid sinus and adrenalin, relation of, to hyperglycemia of shock, 763*
Cashman, C. W., Jr., Winternitz, M. C., and Mylon, E., 763*
Cellophane, occlusion of infected patent ductus arteriosus with, 277*
Cerviño, José M., Bazzanò, J. J., Fournier, J. C. M., 659
Chess, D., Cole, W. H., and Chess, S., 413*
Chess, S., Chess, D., and Cole, W. H., 413*
Chest, deformity, electrocardiographic study of, 440
Chidsey, A. Dwight, and Reifenstein, G. H., 127
Childhood, rheumatic fever of, 548, 652*
Children, Cuban, rheumatic cardiopathies in, 135*
normal, modified technique for its determination and range of values for; angle of clearance of left ventricle as an index to cardiac size, 552*
school, incidence of heart disease and rheumatic fever in, in three climatically different California communities, 178
Cholesterol atheromatosis, experimental of rabbits, effects of several detergents on, 655*
Cincinnati, rheumatic fever in, in relation to rentals, crowding, density of population, and Negroes, 273*
Circulation and respiration in patients with obstruction of superior vena cava; cerebral factors in dyspnea and orthopnea, 763*
changes in, following subcutaneous injection of histamine in dogs, 138*
coronary flow, effect of diathermy on, 390
role of thebesian drainage in dynamics of, 551*
fetal, and cardiovascular system, and changes that they undergo at birth, 658 (B. rev.)
in hemorrhagic shock in dogs, effect of paredrine on; pressor therapy, (IX); Traumatic shock, 763*
pulmonary, mechanisms of respiratory variations of arterial pressure on, 549*
two, influence of diminution of intrathoracic pressure on blood pressure in, 655*
Clarke, Norman E., 628
Cocarboxylase and coenzyme I content of myocardium of dog, effect of experimental coronary artery ligation on, 384
Coenzyme I and cocarboxylase content of myocardium of dog, effect of experimental coronary artery ligation on, 384
Cole, W. H., Chess S., Chess D., 413*
Coleman, George H., and Beebe, R. A., 539
Conduction, aberrant atrioventricular, in case showing short P-R interval and abnormal but not prolonged QRS complex, 650*
auriculoventricular, delayed, in bundle branches, 728
system, anomalous excitation of (Wolff-Parkinson-White syndrome), potential variations of thorax and esophagus in, 281
cardiac, morphologic study of; IV. Anatomy of upper part of ventricular septum in man, 526
Cookson, H., 546
Cossio, P., Vedoya, R., and Berconsky, I., 650*
Coulter, W. W., and Marcuse, P., 411,* 651*
Cowden, Fred E., Reinhart, J. B., and McMillan, R. L., 580
Crismon, J. M., 409*
Cysts, echinococcal, clinical and theoretical considerations of involvement of left side of heart with, 143

D

Dallas area, incidence of rheumatic fever in Texas with particular reference to, 652*
Dawson, M. H., and Hunter, T. H., 651*
de la Torre, H., de los Reyes, R. P., Labourdette, J., and Junco, J. A. 135*
de los Reyes, R. P., de la Torre, H., Labourdette, J., and Junco, J. A., 135*
de Oliveira, Roberto M., 139 (B. rev.)
Decherd, George M., and Ruskin, A., 633
—, —, Herrmann, G., 20
Desoxycorticosterone, treatment of orthostatic hypotension, with particular reference to use of, 246
Dexter, Lewis, and Haynes, F. W., 654*
—, —, and Bridges, W. C., 550*
—, Peters, J. H., and Weiss, S., 143
—, Sandmeyer, J. A., Haynes, F. W., and Quinby, W. C., 654*
Deyrup, I. J., 138*
Diathermy, effect of, on coronary flow, 391
Dick, G. F., 550*
Dicumarol and heparin, anticoagulants effective in vivo with special reference to, 416*
effect of upon plasma fibrinogen, 552*
Diet as a predisposing factor in rheumatic fever, 135*
Digilanid and therapy of congestive heart disease, 656*
Digitalin, biometric studies concerning, 766*
Digitalis cat assay in relation to rate of injection, 553*
Dille, J., Wiggers, H. C., and Ingraham, R. C., 764*
Disease, and health, physiology in, 140 (B. rev.)
intimal arteriosclerosis, and aging, calcification of media of human aorta and its relation to, 136*
Diuretics, mercurial, addition of magnesium sulfate to prevent toxic effects of their intravenous administration, 657*
Doulin, Alice T., McClellan, W. S., and Lessler, M. A., 44
Dressler, William, 728
Dubin, I. N., and Hollishead, W. H., 410*
Ducey, E. F., and Sherman, C. F., 414*
Ductus arteriosus, further experience in surgical treatment of persistence of, 760*
infected patent, occlusion of with cellophane, 277*
patent, and its surgical treatment, 760*
effect of ligation on infection of, 547*
preoperative diagnosis of, 410*
Duodenum, active disease of, and of gall bladder, electrocardiographic changes in, 628
Dworkin, R. M., Green, H. D., Antos, R. J., and Bergeran, G. A., 275*
Dyspnea and orthopnea, cerebral factors in; respiration and circulation in patients with obstruction of superior vena cava, 763*

E

Echinococcus, cysts, clinical and theoretical considerations of involvement of left side of heart with, 143
Einstein, A., Blau, A., Kelly, H. G., and Jackson, R. L., 552*
Einthoven triangle hypothesis, validity of, 369
Electrocardiogram, aberration of ventricular complex in (I); Auricular premature systole, 449
after exercise in angina pectoris, 273*
and anatomic studies of experimental precordial trauma, 271*
and cardiac state in active sickle-cell anemia, 685
changes in active duodenal and gall bladder disease, 628
periodic, in form of P waves in partial heart block, 213
embodying multiple types of leads, a simple switching device to facilitate the recording of, 733
heart rate, and arterial pressure of rat, effect of hypothermia on, 409*

Electrocardiogram—Cont'd
in which main ventricular deflections are directed downward in standard leads, 62
interpretation elements of, 279 (B. rev.)
modifications of, after an attack of paroxysmal tachycardia, 650*
negative displacement of RS-T segment in, and its relationships to positive displacement; experimental study, 220
studies in Heine-Medin's disease (poliomyelitis), 651*
study of cardiac aging based on records at rest and after exercise, 760*
deformity of chest, 440
value of, in acute rheumatic fever, 411*
Electrocardiography, fetal, and stethography, 272*
Embolism, occlusion of major arteries, 276*
pulmonary, and venous thrombosis, prevention of, 413*
clinical and cardiographic progress of case, 137*
Emphysema, spontaneous mediastinal, with pneumothorax simulating organic heart disease, 546*
Endocarditis, acute bacterial, in aged, 597
pneumococcic, 652*
staphylococcal, apparent arrest of, 403
subacute bacterial, combined use of penicillin and heparin in treatment of, 548*
in aged, 661
treatment of, with penicillin, 651*
vegetative, caused by higher bacteria and fungi, 99
Endocardium, left atrial, microscopic lesions of, in chronic rheumatic heart disease, 739
Enikeeva, S. I., 656*
Epinephrine and angiotonin effect of intravenous injection of, before and after production of neurogenic hypertension, 278*
bradycardia and shock in young animals, mechanism of, 656*
Erickson, Eldon W., and Fahr, G. E., 348
Erratum, 141, 417
Esophagus and throrax, potential variations of, in anomalous atrioventricular excitation (Wolff-Parkinson-White syndrome), 281
Ethridge, Clayton B., and Stolar, M. H., 733
Evans, G., 546*
Evans, W., 547*
Exercise, relation of resting heart rate to increase in rate due to, 594

F

Fahr, George E., and Erickson, E. W., 348
Fashena, Gladys J., 652*
Feasby, W. R., 273*
Feigen, G., Prinzmetal, M., Hechter, O., Bergman, H. C., Sapirstein, L., and Fisk, R., 499
Ferderber, M. B., and Moses, C., 272*
Fever therapy, for sulfonamide-resistant gonorrheal urethritis, coronary occlusion after, 205
Fibrillation, atrial, momentary atrial electrical axes, 20
auricular, prognostic significance of, in association with myocardial infarction, 575
ventricular, as a complication of hyperthryroidism, 751
Fibrinogen, plasma, effect of dicumarol upon, 552*
Fisk, Roy, Feigen, G., Prinzmetal, M., Hechter, O., Bergman, H. C., and Sapirstein, L., 499
Fistula, arteriovenous, and traumatic aneurysms, treatment of, 274*
of femoral vessels, infected dissecting aneurysm of iliac artery following, 138*
of lung, 656*
Fluid, local, ischemic compression shock with analysis of loss of, 275*
Flutter, atrial, momentary atrial electrical axes, 20
auricular, and paroxysmal tachycardia, unity of, 547*
heart sounds in, 610
Foliandrin, place of, within group of cardiac glucosides, 138*
Forero, A., Silva, R., and Saffie, F., 271*
Fournier, J. C. Mussio, Cerviño, M., and Bazzano, J. J., 659
Fox, T. T., 650*
Frank, H. A., Altschule, M. D., and Zamcheck, N., 763*
Franklin, K. J., Prichard, M. L., and Barclay, A. E., 658
Friedman, Meyer, 37
Frostbite, experimental, and prevention of subsequent gangrene, functional pathology of, 762*

G

Gall bladder and active duodenal disease, electrocardiographic changes in, 628
Gangrene, subsequent, functional pathology of experimental frostbite and prevention of, 762*
Gasps, dying, yawns, and sighs, influence of, on blood pressure and blood flow, 762*
Gastrointestinal system, symptoms of progressive myocardial disease of, 580
Gilchrist, A. R., 760*
Gillesby, W. J., 552*
Glomset, Daniel J., and Birge, R. F., 526
Glucosides, cardiac, place of foliandrin within group of, 138*
Glycogen, cardiac, mechanism of effect of hyperthyroidism on, 549*
Glycosides, cardiac, toxicity of different; bidirectional paroxysmal tachycardia, 261
Goldberg, M. L., Wakerlin, G. E., Johnson, C. A., and Moss, W. G., 278*
Goldberger, Emanuel, 369
—, and Schwartz, S. P., 62
Gonococcus infection, coronary occlusion after fever therapy for sulfonamide-resistant gonorrheal urethritis, 205
Goodof, Irving I., Beamer, P. R., and Reinhard, E. H., 99
Govier, Wm. M., 384
Graef, I., Proskauer, G. G., and Neumann, C., 550*
Green, H. D., Dworkin, R. M., Antos, R. J., and Bergeron, G. A., 275*
Gregory, Raymond, 246
Gremillion, Alice I., and Byer, E., 697
Grollman, A., 654*
Gross, D., 560*
Guerra, F., 766*
Guild, R., Rapport, D., and Canzanelli, A., 764*
Gunther, L., and Henstell, H. H., 551*
Guy, P. F., 548*

H

Hahman, Paul T., Sampson, J. J., Halverson, W. L., and Shearer, M. C., 178
Halverson, Wilton, L., Sampson, J. J., Hahman, P. T., and Shearer, M., 178
Hampson, F., and Brown, J. W., 137*
Harper, F. R., and Robinson, M. E., 277*
Harrison, T. R., and Thomas, W. C., 553*
Harvey, Abner M., and Billings, F. T., 205
Haynes, F. W., and Dexter, L., 654*
—, —, and Bridges, W. C., 550*
—, —, Quinby, W. C., and Sandmeyer, J. A., 654*
Hays, H. W., Kleinberg, W., and Swingle, W. W., 764*
Health and disease, physiology in, 140 (B. rev.)

Heart, aging of, an electrocardiographic study of, based on records at rest and after exercise, 760*
aneurysm of, operation for, 138*
block, bundle branch, 767 (B. rev.)
with spontaneous remission after four years, 120
complete, hemochromatosis with, with discussion of cardiac complications, 253
partial, periodic changes in form of P waves in, 213
containing giant cells with radial inclusions, embolic thrombosis of abdominal aorta with tuberculous (histologic) lesions of, 539
disease, 767 (B. rev.)
and rheumatic fever, incidence of, in school children in three climatically different California communities, 178
asymptomatic, in young adults, 548*
chronic rheumatic, microscopic lesions of left atrial endocardium in, 739
clinical, 417 (B. rev.)
congenital, diagnosis of, 546*
tricuspid atresia and mitral atresia associated with transposition of great vessels, 90
congestive, digilanid and therapy of, 656*
in South; I. Statistical study of, 1,045 cardiac deaths, 168
incidence of, in Puerto Rico, 339
organic, spontaneous mediastinal emphysema with pneumothorax simulating, 546*
rheumatic, in Cuban children, 135*
in early life, management of, 546*
serious, management of delivery in pregnancy complicated by, 412*
failure, congestive, treatment of, 546*
effect of lanatoside C upon physiologic state of organically diseased hearts before symptoms and signs of, appear, 348
fatal cardiac tamponade following sternal puncture, 765*
hypertrophy of, of unknown cause, 127
involvement of left side of, with echinococcal cysts, clinical and theoretical considerations of, 143
mensuration of, 414*
murmurs, certain observations referring to, and their mode of transmission, 761*
some notes of transmission of, 134*
organically diseased, effect of lanatoside C upon physiologic state of, before symptoms and signs of heart failure appear, 348
output of, effect of positive and negative intrathoracic pressure on, and venous pressure in dog, 271*
in severe anemia, 410*
rate and blood pressure, variability of, in selected groups of college and high school students, 412*
arterial pressure and electrocardiogram of rat, effect of hypothermia on, 409*
resting, relation of, to increase in rate due to exercise, 594
resuscitation of, 277*
size of, angle of clearance of left ventricle as an index to; modified technique for its determination and range of values for normal children, 552*
in shock produced by venous occlusion of hind limbs of dog, 763*
sounds, auricular, in auricular flutter, 610
state of, and electrocardiogram in active sickle-cell anemia, 685
weight of, and number of cardiac capillaries in guinea pigs at different altitudes, 133*

Hecht, Hans H., and Meyers, G. B., 610
—, Wilson, F. N., Johnston, F. D., and Rosenbaum, F. F., 281
Hechter, Oscar, Bergman, H. C., and Prinzmetal, M., 484, 493, 513
—, —, Sapirstein, L., Fisk, R., Feigen, G., and Prinzmental, M., 499
—, Prinzmetal, M., Bergman, H. C., and Rosenfeld, D. D., 506
Heibner, Winston C., and Schenken, J. R., 754
Heine-Medin's disease (*See* Poliomyelitis)

Hemochromatosis, with complete heart block, with discussion of cardiac complications, 253
Hemorrhage, acute, effects of, and of subsequent infusion upon blood vessels and blood flow as seen in mesenteries of anesthetized dogs, 655*
Henstell, H. H., and Gunther, L., 551*
Heparin and dicumarol, anticoagulants effective in vivo with special reference to, 416*
and penicillin, combined use of, in treatment of subacute bacterial endocarditis, 548*
Herrmann, George, Decherd, G. M., and Ruskin, A., 20
Hines, E. A., Jr., 413*
Histamine, circulatory changes following subcutaneous injection of, in dogs, 138*
Hollishead, W. H., and Dubin, I. N., 410*
Holonbek, Alice B., 168
Holt, J. P., 271*

Thompson, W. P., and Jones, J. C., 656*

Thorax and esophagus, potential variations of, in anomalous atrioventricular excitation (Wolff-Parkinson-White syndrome), 281
Thrombosis, embolic, of abdominal aorta with tuberculous (histologic) lesions of heart containing giant cells with radial inclusions, 539
venous, and pulmonary embolism, prevention of, 413*
Thyroid gland, insufficiency of, cardiovascular system in, 659 (B. rev.)
Tinsley, C. M., 652*
Trauma, experimental percordial, electrocardiogram and anatomic studies of, 271*
Tubbs, O. S., 547*
Tuttle, W. W., and Salit, E. P., 411,* 594

U

Urethritis, sulfonamide-resistant gonorrheal, coronary occlusion after fever therapy for, 205
Urinary system, disease of, as cause of hypertension, 516

V

Valve, mitral atresia and tricuspid atresia of, associated with transposition of great vessels, 90
stenosis of, development and interpretation of auscultatory signs of, 547*
pulmonary roentgenographic changes due to, simulating those due to silicosis, 327
significance of pulmonary diastolic murmur in cases of, 761*
calcified, sclerosed, 139 (B. rev.)
tricuspid atresia and mitral atresia of, associated with transposition of great vessels, 90
congenital insufficiency, 647
congenitally insufficient, accompanied by anomalous septum in right atrium, 410*
mitral; suggestion as to mode of development, 273*
Vascular system, degenerative diseases of, experimental studies on therapy and prevention of; II. Effects of several detergents on experimental cholesterol atheromatosis of rabbits, 655*
peripheral disease of, oscillometer and thermocouple as diagnostic aids in, 272*
Vedoya, R., Berconsky, I., and Cossio, P., 650*
Vein, azygos, of arch, radiologic image in cardiovascular disease, 414*
occlusion of, in hind limbs of dog, heart size in shock produced by, 763*
thrombosis of, and pulmonary embolism, prevention of, 413*
Vena cava, superior, respiration and circulation in patients with obstruction of, cerebral factors in dyspnea and orthopnea, 763*
Venography, further experiences with, 656*
Ventricle, left, angle of clearance of, as index to cardiac size; modified technique for its determination and range of values for normal children, 552*
right, cardiac tamponade, report of stab wound in, 552*
Ventricular complex, aberration of, in electrocardiogram (I); Auricular premature systole, 449
Ventricular—Cont'd
complexes, electrocardiogram in which main deflections are directed downward in standard leads, 62
gradient, normal human; V. Relationship between A_{qrs} and G, and potential variations of body surface, 697
Vitamin E deficient and normal rats, blood pressure studies on, 653*

Wolferth, Charles C., Bellet, S., Livezey, M. M., and Murphy, F. D., 220
Wolff, L., and Luisada, A. A., 761*
Wolff-Parkinson-White Syndrome, 569 (*See also* Conduction system, anomalous excitation of)
Woodbury, R. A., and Abreu, B. E., 762*
Wosika, P. H., and Braun, L., 261
Wounds, stab, cardiac tamponade, in right ventricle, report of, 552*
Wright, Irving, 1

Y

Yawns, dying gasps, and sighs, influence of, on blood pressure and blood flow, 762*
Yohimbine hydrochloride, toxicity of, 416*
Yonkman, F. F., 416*
——, and Jacobs, J., 278*

Z

Zahman, Burton L., and Russek, H. I., 113
Zamcheck, N., Altschule, M. D., and Iglauer, A., 763*
——, and Frank, H. A., 763*
